Cases Produced:	200 cases
Harvest:	October 2008
Fermentation:	100% stainless at 58 degrees
Barrel Aging:	n/a
Alcohol:	11.8%

Vineyard Description:

This 100 acre vineyard is located off Dry Creek Road on the valley floor and borders the banks of Dry Creek itself. The soil composition of this vineyard is Yolo Sandy Loam, the clone is 01EH. Our particular block was farmed so that there was an extensive amount of leaf pull at the basal leaf zone to filter in plenty of sunlight to the cluster.

Winemaker notes:

This late harvest sauvignon blanc was made is a traditional sauternes style. Our goal in this wine was to have a harmonious balance between acidity, sweetness, and complexity. To attain this we picked the fruit at 32 brix, which is not too ripe, keeping the integrity of the vineyard.
